5. tetel:

 $\stackrel{\triangle}{=} \times \sim \stackrel{B}{=}$ 

A Designation of the second of

LS: Ax= & + Ab

AX = B + 2B

min | B |

X2~y X2~Y

TLS:  $(\Delta + \Delta \Delta) = B + \Delta B$ 

man | SA SD |

STLS:  $\triangle(p+\Delta_p) = B(p+\Delta_p)$ 

min | Sp |

TLS: Implicit modell (rajmentes fetteteleres: xot 20 = 0)

Feltessrul, hagy \(\times\_t \sim \mathcal{W}(\times\_{\tau\_t} \mu \mathcal{U}(\times\_{\tau\_t} \mu \mathcal{U})

Maximum likelihood (mines a priori info)

ln f (x1, x21--1 x /22) -> max xot 2 = 0 Rorletoros mellett.
